

Up to \$50,000 in Signs, Posts and Hardware for  
Eligible Townships

**What makes my township eligible?**

Having a higher than average rate of crashes for your entire township roadway system over the previous five years. Don't worry – ODOT tracks this for your township and will notify you if you are eligible to apply.

**How hard is the application?**

Have you ever put together a sign order? That is all there is to it! The application asks basic contact information and then what signs, posts and hardware your township needs.

**What is covered?**

Safety signs are covered, plus the posts and hardware your township needs to install them.

**Who pays the invoices?**

ODOT pays the invoices for your township. There are no out-of-pocket funds for your township.

**How long does my township have to put up the signs?**

From the date of notification, townships typically have a year to 18 months to install the ordered signs.
